NEW YORK CITY

If you mention The Big Apple, Gotham, the City that Never Sleeps or Manhattan, most people know you are referring to New York City. New York City it's actually only one of five boroughs — the others are the Bronx, Brooklyn, Queens and Staten Island.

The last three decades have seen New York experience dramatic urban renewal—as safe and clean as it was in the 1950s. Once again NYC is a desirable place to live and visit with its remarkable diversity.

In addition to the more than 8 million people living in all five boroughs, over 30 million people visit New York City each year.
