This special luncheon workshop, conducted by the Griffith Insurance Education Foundation for the NCOIL Institute for Insurance Policy, is provided to enhance policymakers' understanding about Healthcare Reform and the potential for opportunities to improve patient access and quality of care.

An Education Workshop for NCOIL 2011 Spring Meeting Attendees

# Expanding Scope of Coverage: Cost Saver or Healthcare Headache?

Saturday, March 5th  
12:00 P.M. – 1:15 P.M.  
Lunch will be provided

As government and business leaders attempt to bend the cost curve for healthcare costs, many states have expanded scope of practice regulations for healthcare professionals, such as allowing nurse practitioners to prescribe medication. What are the potential costs and benefits of these new approaches? Have rules or statute changes been the vehicle to achieve these ends? How is patient access and quality of care affected? What other promising practices and innovations have produced cost savings and quality improvement? Does the federal healthcare law promote or discourage these types of initiatives?

Please join us for lunch as **Dr. Patricia Born**, Associate Professor and Director of the Center for Insurance Research at the Department of Risk Management/Insurance, Real Estate & Legal Studies at the College of Business at Florida State University conducts this special session.

**SIGN UP NOW...space is limited.**
